

DYLAN BUSTOS

Cedar Park, TX | 512-925-1536 | dylanantonibustos@gmail.com | [Portfolio](#)

Professional Summary

Data analyst with a strong foundation in computer science and statistical modeling, experience in using SQL, Python and machine learning to deliver actionable insights through dashboards, analytical reporting, and predictive models.

Education

Post Graduate Program – Data Science and Business Analytics

GPA - 4.0

The University of Texas at Austin — Aug 2025

Bachelor of Science – Computer Science

The University of Texas at Dallas — May 2024

Skills

Programming & Analytics: SQL · Python · Pandas · NumPy · Scikit-Learn · Excel

Data Visualization: Tableau · Matplotlib · Seaborn

Databases & Tools: MySQL · Github · Jupyter Notebook · Google Colab

Additional Programming: Java · C++ · Javascript · MIPS · MATLAB

Core Competencies: Analytical Thinking · Problem Solving · Data Storytelling · Communication · Team Collaboration · Leadership · Adaptability · Time Management

Projects

- **New Wheels – SQL Analytics:** Built a SQL dashboard and automated quarterly reports to identify key business drivers and customer retention strategies using analysis of 994 annual customer reviews.
- **Trade & Ahead – Unsupervised Learning:** Applied K-Means and hierarchical clustering analysis to stock market data to identify investment-relevant patterns and segment market behavior. Evaluated cluster quality using cophenetic correlation, achieving a peak score of .94 with Euclidean distance and average linkage.
- **EasyVisa – Machine Learning:** Developed ensemble ML models (bagging and boosting) to predict visa approvals, achieving 75–78% accuracy and identifying key decision drivers.
- **INN Hotels – Classification:** Built logistic regression and decision tree models to predict hotel booking cancellations. Analyzed key features influencing cancellation risk to support data-driven refund policy and revenue optimization decisions.
- **FoodHub Order Analysis – Python:** Conducted Python-based exploratory data analysis (EDA) using NumPy, Pandas, Matplotlib, and Seaborn to uncover customer ordering patterns. Identified behavioral trends and opportunities to improve targeted marketing strategies for a food delivery platform.

Leadership & Involvement

Honor Board Member, Delta Tau Delta (2020–2023) — Investigated and resolved Chapter Bylaw violations, strengthening organizational accountability, governance, and compliance standards through fair and structured decision-making.

Director of Risk Management, Delta Tau Delta (2022–2023) — Led risk management initiatives and compliance review across chapter operations. Advised executive leadership, coordinated a team of Honor Board members, and implemented policies to reduce organizational risk and improve operational oversight.
